Auto-Join

Private Address

Wi-Fi Address

16:51:29:16:AA:34

Using a private address helps reduce tracking of your iPad across different Wi-Fi networks.

Low Data Mode

Low Data Mode helps reduce your iPad data usage over your cellular network or specific Wi-Fi networks you select. When Low Data Mode is turned on, automatic updates and background tasks, such as Photos syncing, are paused.

Privacy Warning

Private Wi-Fi address is turned off for this network, by your network provider.

Using a private address helps reduce tracking of your iPad across different Wi-Fi networks.

[Learn more about recommended settings for Wi-Fi...](#)

Auto-Join

Private Address

Set to On to help protect your privacy.

Using a private address helps reduce tracking of your iPad across different Wi-Fi networks. Private addresses are not available on this network because the network provider has restricted their use.

Low Data Mode

Low Data Mode helps reduce your iPad data usage over your cellular network or specific Wi-Fi networks you select. When Low Data Mode is turned on, automatic updates and background tasks, such as Photos syncing, are paused.
